

RAMIK[®] GREEN

RODENTICIDE FOR CONTROL OF GROUND SQUIRRELS FOR USE ONLY IN THE STATE OF IDAHO

24(c) LABELING SUPPLEMENTAL LABELING

This labeling must be in the possession of the user at the time of pesticide application.

ACTIVE INGREDIENT:

Diphacinone (2-Diphenylacetyl-1, 3-Indandione)	0.005%
INERT INGREDIENTS:	99.995%
TOTAL	100.000%

EPA Reg. No. 2393-498

EPA SLN No. ID960005

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

KEEP OUT OF THE REACH OF CHILDREN

Keep out of reach of children, pets, wildlife and domestic animals.

RAMIK bait should be placed in tamper-resistant boxes or in areas which are inaccessible to children, pets, wildlife and domestic animals.

Wear rubber gloves when handling this product.

IF SWALLOWED by human beings, domestic animals or pets, this material may reduce the clotting ability of the blood and cause bleeding. In such cases, intravenous and oral administration of vitamin K₁, combined with blood transfusions, is indicated as in the case of hemorrhage caused by overdose of bishydroxycoumarin (Dicumarol).

IN ALL CASES OF HUMAN INGESTION
IMMEDIATELY NOTIFY A PHYSICIAN.

ENVIRONMENTAL HAZARDS

This product is toxic to mammals and birds. Do not apply this product directly to water or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water by cleaning of equipment or disposal of wastes.

IMPORTANT

For best results, keep this product in a closed container, free from odors which may contaminate the bait and reduce acceptability.

Rodents may feed several times before the effects are noticed. Several days may be required for death to occur.

DIRECTIONS FOR USE

It is a violation of State and Federal law to use this product in a manner inconsistent with its labeling.

IMPORTANT: Before using this product, read carefully and observe all applicable directions, precautionary statements, and other information appearing on the EPA registered product label. This product is sold subject to the conditions of sale stipulated on the labeling for RAMIK GREEN, EPA Registration No. 2393-498.

GROUND SQUIRRELS: California ground squirrels (*Spermophilus beecheyi*), Columbian ground squirrels (*S. columbianus*), Townsend ground squirrels (*S. townsendi*), and Washington ground squirrels (*S. washingtoni*).

This product can be used to control ground squirrels found in levee and ditch banks, around farm buildings, along fence lines, in orchards, or in other crop and non-crop areas.

All outdoor bait placements must be made in protected bait stations, where they will be readily accessible to the ground squirrel, preferably near their burrows.

These bait stations must be strong enough to inhibit destruction by livestock and nontarget animals. Stations must be constructed to permit entry by target species but not by larger animals. Stations must be constructed to inhibit spillage of bait to the outside environment and must be secured so that they cannot be overturned by wind, livestock, pets, and wildlife.

Bait placements should be checked daily to insure that an uninterrupted supply of bait is always available. Maintain an uninterrupted supply of bait until all signs of feeding have stopped.

Bait stations should be located conveniently to the squirrel burrows and should be placed 20 to 100 feet apart, depending on population density.

Use up to 1 cup of bait in each protected bait station.

STORAGE AND DISPOSAL

Please refer to container label for appropriate statements.

NOTICE

Because Manufacturer and Seller have no control over storage, handling, and conditions of use, which are of critical importance, Manufacturer and Seller make no representation or warranty, either express or implied, for results or residues greater than any tolerance which may be established by appropriate government agencies, due to misuse, improper handling or storage of this material. Nor do Manufacturer and Seller assume any responsibility for injury to persons, crops, animals, soil, or property arising out of misuse, improper handling or storage of this material.
